December 2

Potomac Company.

At a meeting of the Stockholders of the Potomac Company, held at Semmes's tavern in Georgetown, on the 29th Nov. 1816, according to law, Charles Worthington was appointed Chairman and Joseph Brewer Secretary. Elie Williams and George Peter, Esqrs. were appoiated a committee to examine the Proxies: the number of shares voted were 274.

A proposition was made to the meeting by the proprietor of the adjacent lands, in relation to the use of the water, for manufacturing and mechanical purposes of the canal at the little falls.

The directors of the company present reported to the meeting a resolution of the board of directors, passed on the 13th instant, whereby they had appointed a committee of stockholders to take measures for opposing before the legislature of Virginia a petition "to incorporate a company for the purpose of making a canal from the Seneca falls, or the mouth of Sugar Land Run, on the Potomac, in the county of Fairfax, in the town of Alexandria."

The chairman of the said committee stated that they had had a meeting, and having ascertained that by a special call a general meeting of the company would take place in a few days, they had determined to adopt no decisive course in the duty assigned to them previous to such general meeting, in order that the Potomac Company might have an opportunity if it should think proper to do so, to act directly on the subject.

Whereupon, Resolved, That whereas it appears that only a single member from the western shore of the Potomac is present that the State of Virginia is not represented at this meeting, and as the absence of the gentlemen holding the proxy of the state of Virginia and of the members residing in the town of Alexandria, and the neighboring parts of the district of Columbia and the state of Virginia, may have been occasioned by the rainy weather now prevailing, that this meeting adjourn to meet at the same place on Tuesday next, the 3d of Dec. at 11 o'clock in order to give an opportunity to the absent members and proxies of attending, and that the chairman send a copy of these proceedings to each of the directors of the company residing in Alexandria, and that he request on behalf of this meeting their attendance at the adjourned meeting on Tuesday next, and that he further request the said directors to give notice to such of the stockholders as may reside in Alexandria of the time place and object of the said adjourned meeting.

Resolved, that these proceedings be published in the news papers of the City of Washington, Georgetown and Alexandria, for the information of the stock holders generally, and of the proxies, and for the purpose of giving them an opportunity of attending at the said adjourned meeting.

Chairman.

Virginia Legislature.

The House still meets at 11 o'clock,—From that hour to 12, they are engaged in reading engrossed bills, passing bills through the 2d stage, receiving and disposing of the reports of committees, listening to petitions, granting leave to bring in new bills, receiving resolutions from the members. When 12 o'clock arrives, the order of the day, as it is styled, on the state of the commonwealth, is called up, and if there be no business to be investigated at large before the committee of the whole, the order is put off till the next day, and the House return upon their ordinary business. If there be a subject to require minute and unshackled investigation, the House resolves themselves into the committee of the whole, the Speaker leaves his chair, a chairman pro tempore is appointed by the Speaker, and every member can speak as often as he chooses. It is unnecessary to say, that both in the House and in the committee, every member can speak as long as he pleases. Nor is it necessary to add, that some members use this privilege very freely, others very modestly; some not at all; that some speakers exhaust the attention of their audience, some enchain it.

This is the usual routine of the proceedings of the House. During the last three days, the order of the day has been carried into execution—for the Suspension Bill has been before the committee of the whole, and it face is yet in a state of suspense. No question has been taken which yet indicates in the slightest degree the pulse of the House. A Bostonian might indeed form some guess as to the result; but we are content to wait with patience, the denoument of the debate. Sufficient for us is the issue thereof.

Yesterday, some engrossed bills were passed; several bills went through their their first and second readings, and several reports from committees were read.

Mr. Graves, of New Kent, brought forward the following Preamble and Resolution:

"Whereas, at the last Congress of the United States, an act was passed giving to the members composing that body a stipulated and fixed salary for an unsettled and unfixed service, and having a retrospective operation, which is deemed contrary to the spirit and principles of republican government, and contrary to the spirit of the constitution of the United States—

Be it therefore Resolved, that the said act meets the decided disapprobation of the present General Assembly, and ought to be repealed.

"Be it further Resolved, that the senators in congress from this state be instructed, and the representatives be requested to use their influence to produce a repeal of said act."

Mr. Baker moved that the foregoing Resolutions be laid upon the table.

Mr. Doddridge made a motion for its indefinite postponement; which Mr. Mercer requested him to withdraw, upon the ground that gentlemen might have an opportunity of considering whether the Legislature ought to interfere in such a business, though he himself had no doubts that they ought not; as well as to prevent any erroneous impressions going abroad, in case it was at once indefinitely postponed.

Mr. Doddridge refused to withdraw it.

The question was then put on Mr. Baker's motion and carried.

At 12 o'clock, the House resolved itself into a committee of the whole on the state of the commonwealth, Mr. Baker in the chair.

Messrs. Marshall, of Fauquier, and Austin, of Buckingham, severally addressed the committee, in opposition to the substitute proposed by Mr. Hay; in other words, to the proposition for fixing no day for the resumption of specie payments, but leaving it to the discretion of the directors, subject, however, to the condition, that they do not declare and make any dividends among the stockholders, until they do resume payment. [In the course of a day or two, we shall present a summary of the arguments on both sides of the question.]

The committee rose, without taking the question, and the House adjourned.

LATE FROM RUSSIA.

Yesterday arrived at this port, the U. States' brig Prometheus, A. S. Wadsworth, commander, 36 days from St. Petersburgh, and 28 from Elsineur.

This is the vessel which carried out Mr. Coles, with despatches from the American Government to the court of Russia. She arrived at St. Petersburg on the 27th Sept, and remained there till the 20th of Oct. during which time the Emperor was absent on a journey.

We understand she has brought despatches from the American Charge d'Affaires in Russia, and from Mr. Coles—but on account of the absence of the Emperor, it is presumed they are not answers to the communications of our government, for which probably Mr. C. remained at St. Petersburgh.

The Prometheus brings no political intelligence of importance.

Mr. Pinkney had not arrived. We do not learn that Mr. Harris, our consul and Charge d'Affaires, had permission to appear again at court in his official character.

FROM ENGLAND.

The ship Bristol Trader, which arrived yesterday in 28 days from England, did not bring papers so late as received at New York, as she had no communication with the shore for several days previous to sailing.

WORTHY OF REMARK.

The ship Beverly, belonging to the honorable I. Thorndike, which arrived here the 7th inst. from Canton, left this port on the 22d of July, 1815; stopped 3 1-2 months in Valparaiso; visited all the Sandwich Islands and the Marun Islands in the Pacific Ocean: loaded in Canton—came the Eastern passage through Dampier's Straits: stopped 8 days at the Cape of Good Hope: has averaged whilst absent 5 knots and 1-8; and has landed 750 tons of goods consisting of 12,500 packages, not one in the least damaged.

And what is most remarkable, during her voyage round the world, she has not lost a spar of the smallest size, nor had the most trifling accident happen; and the very sails which were bent before her sailing, have been constantly worn during the voyage.

R. P. Staples, Esq. has assumed the functions of British Consul at Buenos Ayres.

A letter from Naples, of the 28th Aug. states that Doctor D. Francesco Ambrosio, of Brifonto, has discovered an indigenous opium, more perfect and efficacious than even that of Asia. Opium has been for many ages considered as an almost exclusive production of Asia.

NEW-YORK, Nov. 28,

Late from France—By the arrival this morning, of the ship Foster, captain Moran, in 32 days from Havre, we have Paris dates to the 21st of October. A Paris paper of October 19th announced that the Council of War of the 1st Military District, convened for the trial of Lieutenant General Count Grouchy have decided that they are incompetent to try him on the charges exhibited.

We have received by the James, a file of the Bahama Gazette to the 9th inst. but they contain nothing new.

The Editors of the Gazette have also been favored with a file of Calcutta papers, from the 15th of April, down to the 18th of June. The following nutmeg greys, ah with famous long tails, are advertised for sale in the latest Calcutta Gazette, viz. the Granite, the Caliber, the Marplot, the Pedals, the Shah Jehan, the Emperor, the Lotty, the Prize, and the Scroggins!

And the following Elephants, aged from 17 to 26, viz: Emambucks, Runget Slug, Mungul Peade, Rungwallap, and Loll Peage.

The Ship Towey had arrived at Calcutta from England with 30,000 dollars for the government there.

In a late gale four schooners were wrecked on Lake Ontario—crews saved.

From recent advices from our squadron in the Mediterranean, there is little doubt of the disease of the Gallant Captain Gordon.

Distressing.—As we were last evening coming down in the Gazette boat from the Alms house, we fell in with several small boats full of people. They were in search of a man, whom they did not find, and who no doubt was drowned. A small boat, coming over from long Island in which were a Mr. Davis, his wife and a boatman was upset. Mrs Davis was taken up alive, having been kept afloat for sometime by her cloths. The boat that saved her came over to this city, and another that saved one of the men landed on the other side of the river. We saw Mrs. Davis after she recovered her senses, and her first enquiry was for her husband. The men could not tell whether he was the one saved! Her cries were the most frantic and inconsolable! Mr. Davis had been engaged yesterday in moving from the Island to the city, and many of their effects were lost by the upseting of the boat.

Another Feat of Harlequin Chimney Sweeper.

John Jackson whose escape from Bridewell we yesterday noticed was on Monday night about eleven o'clock, discovered in the upper entry of the public house kept by Mr P. Browne, in Wall street, where he was secured and delivered to the watch room over the Washington market. He has again eluded their vigilence, by jumping from the window into the street and escaping. This same Jackson was once a convict at Botany Bay.

An amendment to the Constitution has been proposed in the Legislature of Massachusetts, in the following words. It has a reference no doubt to the Congressional compensation law.

"No law varying the compensation for the services of senators and representatives in congress, shall take effect until an election of representatives shall have intervened."

General reflections on War,—Nothing so intoxicates a nation as the glory resulting from the feats of its arms. Who shares this glory? It is shared among some few tens or scores of men. But what price is it purchased? At the price of blood: at the price of the blood of thousands, and of the impoverishment and misery of other thousands; at the price, likewise, of a large part of the earnings of all the sons of labour. When a war, immense treasures are expended. Who receives them? The leaders of high rank are amply rewarded with them, and the poor soldiers receive a pittance. Millions are embezzled; there some, and there others, are curbed; but it ever happens that the general body of the middle sort are impoverished, and the poor are made poorer. The immense treasures scattered abroad by war, must be repaid. Who must pay? the people; it falls to their lot to foot the reckoning. They owe the government scores upon scores of millions for the war it has been carrying on. Government, ever a stern and inexorable creditor, must and will be paid. While there one, who has buttered his lips, may well sing out Glory, the people are taxed and fleeced, and made to couch down under their burthens. The reign of Lewis XIV, whom flattery for a while styled The Great, was counted the most brilliant era in the annals of France. Such vast armies; so many marches and countermarches; so many brilliant achievments and splendid victories; so many famous generals, whose names would be enrolled in history; such a magnificent court: such a dazzling show of power and wealth:—a brilliant aera indeed! Agriculture languished for want of hands, and commerce stagnated for want of capital. The resources of the nation were consumed: and a prodigious public debt was incurred: and intolerable taxes were laid down upon the people. In short the glorious wars of Louis XIV. brought upon the people of France general vexation and distress, which lasted more than the full term of one whole generation. In this distressing exigence, recourse was had to the establishment of a bank, of prodigious magnitude, but without any solid foundation: it excited general and sanguine expectation, and its sudden failure involed innumerable multitudes of families in utter ruin.

Thus much of wars for glory, which, as respects the people at large, ever terminate in one and the same manner, in hard times, poverty, debt, cruel taxation, and distressing scarcity of money.

Extract of a letter from Cadiz, dated 27th received here this day.

"We beg leave to hand you our Price Current the last sale of 5000 barrels N. Orleans Flour was at $5 1-2.

The Crops of Grain in this country have fallen short of the expectations of our Farmers and we look forward to a considerable demand and fair prices for the produce of your country indeed we do not hesitate to recommend shipments provided the price of Flour does not exceed eight dollars per barrel."

Extract of a letter from St. Bartholomews, dated the 29th of Oct. 1816.

"At present there are several American vessels lying at Guadaloupe, a great many of which have lost their crews. A dreadful fever rages there, and great numbers of people are dying every day. By the best information this fever was brought there by a vessel from Malta, and is called the Black Fever."

COMMERCE AT HAVANA.

During the month of October, there were 71 arrivals at the port of Havana, viz. 8 from the coast of Africa, 22 from Spanish America, two from old Spain, one from Bremen, ten from British West Indies, and ports in the Atlantic, & 28 from the United States. Of these vessels 34 were Spanish, 9 British, 1 Prussian, and 27 American.

In the same time, there were 56 clearances, viz. 10 for the coast of Africa, 10 for Spanish America, 1 for Old Spain, 4 for ports in Holland, 1 for Liverpool, 3 for British West Indies, and 27 for the United States. Of these vessels, 22 were Spanish, 7 British, 3 Dutch, one French, and 23 American.

From this statement it appears that in October, there were nearly as many American vessels from the United States, employed in the trade to Havana, as there were Spanish vessels from that place, with all the world besides. From Charleston alone, 5 vessels arrived, and 7 cleared. [Charleston City Gaz.

EXTRACT OF A LETTER.

St. Barts. Nov. 11.—"The governor of this island has issued his proclamation, dated the 6th instant, rigidly prohibiting all vessels from Guadaloupe & Antigua entering the port, owing to the prevalence of the yellow fever in those Islands. Several cases have occurred here, introduced by vessels from the said places.

"Accounts were received a few days since via St. Thomas, stating that a severe engagement was fought on the 28th October, on the plains of Barcelona, six miles distant from the town, between the Royal and Patriot armies. St. Gregor M'Gregor, commanded on the part of the Patriots, and General Morales for the Royalists. The forces were about equal, 7000 strong; M'Gregor succeeded in taking 2,500 prisoners, and killing 8 to 900, together with possession of the town. General Morales had escaped into the mountains, and left behind him his horse, baggage, etc. The Patriots were in possession of several other parts of the Maine. Their fleet were said to be at Margaretta: the Patriot privateers are cruizing in great numbers between St. Thomas and Porto Rico; several American and English vessels have been boarded by them and treated with the greatest politeness. They have recently captured several Spanish vessels with valuable cargoes." *F. Jour.*

Washington, City Nov. 30.

There arrived in this city yesterday morning, led by Gen. M'Intosh and by Major Daniel Hughes, U. States' Factor, eight Chiefs & Warriors, deputed by the head men of the Muscogee or Creek nation, on a visit to the President of the U. States. Of the object of their visit we are uninformed; but they are, we learn, invested with full powers to treat on all points relating to their nation. The Deputation is composed of the principal officers who enrolled early in the Creek war and who under M'Intosh, co-operated with Maj. Gen. Jackson during the whole war, and latterly with their leader, marched against the Negro Fort on Apalachicola, which they united with Col. Clinch in the destruction of.

From the Boston Daily Advertiser of Monday.

The Legislature of New-Hampshire met at Concord on Wednesday last. The governor in his speech, recommends to the attention of the Legislature, a great number of subjects as requiring a reform. He has received in part payment of the claims of the state on the general government $40,000 in treasury notes, which he has funded in the name of the state. He states the progress that has been made in preparing to build a state house at Concord, & in ascertaining the proportion of arms due to the state, preparatory to their being received from the United States.

He states the impediments to the proceedings of the boards of trustees and overseers of Dartmouth University, and recommends such an amendment of the law relative to the University, as will authorize some person to call a new meeting of the several boards, reduce the number necessary to form a quorum of each, authorize such as shall meet to adjourn from time to time until a quorum shall be assembled, give the executive power to fill all vacancies in the board of trustees, and enable the trustees to carry the law into effect, and render the institution useful.

In the Senate of New Hampshire, there are two vacancies, one occasioned by the acceptance of a judiciary appointment by the hon. Mr. Badger, and the other by the decease of the hon. Beard Plumer.—These vacancies are likely to occasion some embarrassment in the government of that state. They are required by the constitution to be filled by election by the other house, from the two remaining highest candidates in their several districts. In each of the present cases it is said, that the highest remaining candidates are federalists, so that the other house, though democratic will be under the necessity of supplying the vacancies with federalists, an event which would destroy the predominance of the democratic party in the senate, and give the federalists a check upon the proceedings of the Legislature.

Richmond, Nov. 10.

Concerning the Earth.—We have daily new proofs of the Atlantic parts of the middle and the southern states having been lately formed by alluvion. In this neighborhood, on digging from twenty to fifty feet below the common surface, we meet with a stratum of compact slate coloured clay and sand, which is from ten to thirty feet deep. In this situation is found a variety of bones, wood, marine shells, shark's teeth, etc. A considerable quantity of bones, and other antiquities have lately been extracted from Adam's hill in this town, at a depth of about thirty feet, where a street is now cutting. Some of these bones are from eight to ten inches in diameter; and a large portion of them are petrified. The wood is generally found in a carbonized state: and the surroundning earth has probably received its colour from this vegetable deposit; for wherever carbonized wood is found, there the earth is found to be dark colored. Most of the strata appear to be partly petrified, and in time will no doubt become rock, unless removed by water or some other agent.

From the Herkimer American, Nov 21.

Wonderful Preservation.—On Thursday last, whilst a young man at Newport was engaged in cleansing the bottom of a well, the stones suddenly gave way, and he was immediately buried to the depth of fifteen feet, beneath a solid mass of stones and gravel. Six hours elapsed before the most unremitted exertions of his neighbors were able to extricate him from his perilous situation. When he was taken up, he was able to walk without assistance.

"I am very sorry, but I cannot pay you now" said a man to us, the other day: "can't get any money; there doesn't seem to be any in Circulation." And so we must do without money because there is none in Circulation.—Very good. If it does not circulate to us, it cannot circulate from us,

But what prevents money from circulating? And when may we expect it will again come into circulation?—We do not understand this business. Has money lost any of its old qualities? Does the money which used to circulate cease to exist? We presume not, There is as much money now, as there ever was; it is in the hands of somebody. Do those then, who possess it refuse to pay it away whenever they buy any thing? certainly not.

Do the articles which are usually for sale in the country bear so small a price that very little money can be realised from their disposal! By no means; with scarcely a single exception, the products of the country command a price, high beyond example. Why then does not money circulate!—It does circulate. It circulates, as it always has and always will among the buyers and sellers and among those who spend less than they earn. It is idle, then to talk about the scarcity of money. It is always in the market, always to be bought, with industry and prudence.

But many imagine that something has actually happened to money, which has destroyed its tendency to circulate: that the banks have, somehow or other, a control over it which has produced this effect; and that the national bank will set it all to rights again. The National Bank! When the sky falls, we may catch larks, and when the National Bank gives away money, it will be plenty without our being at the pains to buy it.

Advertisement.

IN obedience to an order of the county court of Fairfax, we will, on Wednesday, the 18th day of December next, proceed to sell to the highest bidder, all that parcel or tract of land (now occupied by, and in the possession of Thomas Ogden of Thomas) belonging to the representatives of the late John Allison, deceased. This tract is believed to contain between 60 and 100 acres, tolerably well watered, with a good proportion in wood, bounded by Ravensworth, and the lands of William Cash, senior, Zachariah Ward and W. H. Foote, Esq. and about seven miles from Alexandria. A farther description is deemed unnecessary, as it is presumed any person inclined to purchase would view the premises, which will be shewn on application to the tenant Thomas Ogden of Thomas. The terms will be, one third cash, and bonds with approved security for the balance, payable in 12 and 18 months.—The sale to take place on the premises, and will commence at 11 o'clock, at which time and place due attendance will be given by the

COMMISSIONERS.

SULLY FOR SALE.

THIS estate, sitnated in the county of Fairfax, twenty-two miles from Alexandria and the same distance from Georgetown, contains about seven hundred and fifty acres. Little River Turnpike passes through it half a mile from the dwelling house. The situation is handsome, and remarkably healthy; the water is good and abundant. The soil which was originally excellent, has for some years past had the advantage of improving husbandry, Plaister of Paris acting with powerful and immediate effect on all grasses and grains. The fields present a good surface for cultivation; and those, now untilled, are covered with red clover. The orchards are very large and thrifty; the collection of table fruit is choice and various. The mansion spacious and well constructed; the out houses are all conveniently situated those for farming purposes are expensive, and excellent in their kind.

For a gentleman of leisure this would be a delightful residence; and a profitable estate to an active farmer. The title is indisputable, and perfectly unincumbered.

A number of well taught orderly young men, with good stocks and farming utensils of all kinds, and the crops of the present year if desired, will be at the command of the purchaser.

Application may be made to the subscriber, living on the premises, next the post office at Pleasant Valley, in Fairfax.

Francis Lightfoot Lee.

For immediate Sale.

Two hundred SHEEP, one fourth full bred, the rest mixed Merinos, all in perfect health and fine order.

☞ The Editors of the National Intelligencer are requested to insert the above twice a week till forbid, and send their account to this office.

Fauquier Lands.

THE subscriber offers for sale the Estate whereon he resides in the county of Fequier, about 8 miles below the court-house, on Cedar-Run, between the roads leading to Fredericksburgh and Occoquan, 30 miles distant from either place, and 40 to Alexandria by the turnpike, from Buckland. The tract is computed at

Three thousand three hundred and seventy Acres,

and is divided into three farms, with Woodland and Meadows, conveniently distributed for each. There is a

Valuable Mill Seat,

with stone on the spot for building.—The stream is abundant, and waters the whole tract, presenting an extent of

Four or five hundred Acres of Low Grounds

of first quality.—The high land is well divided into regular fields, some of them very productive, and is adapted to the use of Plaister. Few tracts can possess greater advantages either for extensive grazing or grain culture.

The purchaser or purchasers of the land, can be accommodated with the farming utensils, the crops of Corn and the sown Wheat—the stock of Cattle, Horses, Sheep and Hogs; and with the Negroes on the estate in families, making about 150, of a very valuable description, with some tradesmen.

The improvements are a comfortable Dwelling House, with good out Houses, Ice House, Stables, &c. The situation is healthy and the water uncommonly good. Two thirds of the whole purchase money will be required at the delivery of the property, the balance in short payments with interest and secured by a deed of trust.

JAMES KENNEDY & SON,

BOOKSELLERS, KING STREET,

Have just received from LEE'S PATENT MEDICINE Store. No. 46 Maiden Lane, N. York

A FRESH SUPPLY

Of the following genuine Medicines.

For the prevention and cure of Bilious and Malignant Fevers, is recommended

Hahn's Anti-Bilious Pills.

THIS Medicine has been attended with a degree of success highly grateful to the inventor's feelings, in several parts of the West Indies, and the Southern & Middle States, particularly in N. York Philadelphia, Baltimore, Petersburg Richmond, Norfolk, Edenton, Wilmington, Charleston, and Savannah. The testimony of a number of persons at each of the above places can be adduced, who have reason to believe, that a timely use of this salutary remedy has, under Providence, preserved their lives, when in the most alarming circumstances.

Facts of this conclusive nature speak more in favour of a medicine than columns of pompous eulogy, founded on mere assertion.

It is not, indeed, presumptuously proposed as an infallible cure, but the inventor has every possible reason that can result from extensive experience, for believing that a dose of these Pills, taken once in every two weeks, during the prevalence of our bilious fevers, will prove an infallible preventative; and further, that in the earlier stages of those diseases, their use will very generally succeed in restoring health, and frequently in cases esteemed desperate, and beyond the power of common remedies.

The operation of these pills is perfectly mild, so as to be used with safety by persons in every situation, and of every age.

They are excellently adapted to carry off superfluous bile & prevent its morbid secretions—to restore & amend the appetite—to produce a free perspiration and thereby prevent colds which is so often of fatal consequences. A dose never fails to remove a cold if taken on its first appearance—they are celebrated for removing habitual costiveness—sickness at the stomach and severe head-ache—and ought to be taken by all persons on a change of climate.

They have been found remarkably efficatious in preventing and curing disorders attendant on long voyages, and should be procured and carefully preserved for use by every seaman.

—

HAMILTON'S WORM DESTROYING LOZENGES.

Which have cured an immense number of persons of both sexes, of every age, and in every situation, of various dangerous complaints arising from worms, and from obstructions orfoulness in their stomach and bowels.

This medicine bears no analogy whatever to others of similar titles so commonly complained of, as operating with violence; on the contrary, a particular excellence of this remedy is its being suited to every age and constitution. It contains nothing but what is perfectly innocent, and is also mild in its operation, cannot injure the most delicate pregnant lady or the tenderest infant of a week old, should no worms exist in the body; but will, without pain or griping, cleanse the stomach and bowels, of whatever is foul or offensive, and thereby prevent the production of worms, and many fatal disorders. The lozenges are particularly efficacious in carrying off all gross humours and eruptions, feverish and bilious complaints, and are the safest and mildest purgative that can be used on any occasion.

DESCRIPTION OF WORMS.

And the symptoms by which they are known:

Worms which infest the human body, are chiefly of four kinds, viz.—The Teres, or large round worm; the Ascarides, or small maw-worm; the Cucurbitina, or short, flat, white worm; and lastly, the Tœnia, or tape-worm, so called from its resemblance to tape. This is often many yards long, and is full of joints. It is most hurtful and most difficult to remove.

Among the symptoms attending worms are—disagreeable breath, especially in the morning; bad and corrupted gums; itching in the nose, and about the seat; convulsions, epileptic fits, and sometimes privation of speech; starting and grinding of the teeth in sleep; irregular appetite, sometimes loathing food, and sometimes voracious; purging, with slimy & fœtid stools; vomiting; large and hard belly; pains and sickness at the stomach; slow fever, with small and irregular pulse; a dry cough; excessive thirst; sometimes pale and unhealthy countenance, and sometimes the face bloated and flushed.

Persons afflicted with any of the above symptoms, should have immediate recourse to Hamilton's Worm Destroying Lozenges, which have been constantly attended with success, in all complaints similar to those above described.

A dose of this medicine given occasionally during th warm season, will effectually prevent "the vomiting and purging of children"—a dreadful disorder, which annually destroys thousands of the infant part of our citizens. It is likewise the mildest and most certain remedy known, and has restored to health and strength a great number, when in an advanced stage of this fatal complaint. Particular and plain instructions are given for every part of the necessary treatment in such cases.

Children generally take this medicine with eagerness; having a pleasing appearance, and an agreeable taste.

—

Hamilton's Essence and Extract of Mustard.

A safe and effectual remedy for acute and chronic rheumatism, gout asthmatic gout, palsy, lumbagoo, numbness, white swellings, chilblains, sprains, bruises, pain in the face and neck, etc.

The Genuine Persian Lotion.

So celebrated among the fashionable throughout Europe, is an invaluable cosmetic, perfectly innocent and safe, free from corrosive and repellant minerals, (the basis of other lotions) and of unparralled efficacy in removing blemishes of the face and skin, freckles, pimples, inflamatory redness, scurfs, tetters, ringworms, sunburns, prickly heat, &c. The Persian Lotion operates mildly, without impeding the natural insensible perspiration, which is essential to health, yet its effects are speedy and permanent, rendering the skin delicately soft and smooth and improving the complexion.

The Restorative Powder for the teeth and Gums.

This excellent preparation comforts and strengthens the gums, preserves the enamel from decay, and cleanses and whitens the teeth, by absorbing all the acrimonious slime and foulness, which suffered to accumulate, never fails to injure and finally ruin them.

Hamilton's Grand Restorative,

Is recommended as an invaluable medicine for the speedy relief and permanent cure of the various complaints resulting from dissipated pleasures, juvenile indiscretions, residence in climates unfavourable to the constitution, the immoderate use of tea, frequent inoxication or any other destructive intemperance or unskilful or excessive use of mercury, the diseases peculiar to females at a certain period of life, bad lyings in, &c.

—

HAMILTON'S ELIXIR.

Sovereign remedy for Colds, obstinate Coughs, Asthmas, sore throats, and approaching Consumptions, and most disorders of the breast and lungs.

—

Hahn's genuine Eye Water.

A sovereign remedy for all diseases of the eyes, whether the effect of natural weakness or of accident.

—

Toothe Ache Drops.

The only remedy yet discovered which gives immediate and lasting relief in the most severe instances.

—

Lee's Ointment for the Itch.

Warranted an infallible remedy at one application, may be used with perfect safety on infants a week old, not containing a particle of mercury or any dangerous ingredient whatever, and not accompanied with that tormenting smart which attends the application of other remedies.

—

Lee's Infallibe Ague and Fever Drops.

For the cure of agues, remittent, and intermittent fevers.

—

Han's true & genuine German Corn Plaister.

☞ At the place of sale pamphlets may be had gratis, describing cures performed by the above medicines; the number, importance and respectability of which, fully justify every article of this advertisement.
